Nature's Gift from the Sunny South

Physicians today are recommending Cottolene for dyspeptics, and others in a "run-down" condition. Never heard of them recommending lard for such a purpose, did you? Cottolene is a product of Nature, clean in source, making and manner of marketing. It makes food which the most delicate stomach can digest.

Cottolene is far superior to lard or cooking butter for all frying and shortening purposes.

There are but four substitutes: Buddhism, now declining; the Koran, childish; Cunfucianism, stagnate, and philosophy, self-contradictory. If the Bible is to be destroyed by criticism, we must destroy our law libraries to a great extent; we must raze churches; we must destroy religious art and scripture; we must abolish religious music; literature must be undermined; even the gravestones in our silent cities with their scriptural messages of hope and faith would have to go. What, then, would we have? Chaos, hopeless-
